

HOW TO SOLVE

Basic Word Seek Rules: The words in the word list are hidden in the diagram of letters. Seek them by reading forward, backward, up, down, and diagonally, always in a straight line. Do not skip over any letters. Some of the letters in the diagram are used in more than one word and some are not used in any words. When you locate a word in the diagram, draw a loop around it. Put a check in the small square next to the word in the word list.

Wheel of Fortune Word Seek Rules: Solve Wheel of Fortune Word Seek puzzles just as you would regular Word Seeks, but pay special attention to the blank spaces in each diagram. Some of the entries will pass through these spaces; as you circle them, write the missing letters into the blanks. These letters will reveal the answer to the Wheel of Fortune puzzle, the category for which can be found at the top of each page. How many letters will you need to fill in before you figure out the answer?

Two Player Rules: Choose a player to start. That player selects a word from the word list and finds it in the diagram, filling in any blank letters that may have been circled. That player tries to solve the Wheel of Fortune puzzle. If he or she cannot, it becomes the other player's turn. The first player to solve the Wheel of Fortune puzzle is the winner!
