Expanded Services Healing Environment in *Darien*

To enhance our services in the Darien community, we have expanded our facility at 1500 Post Road. Experience patient-centered care in the calm, healing setting of our newly remodeled facility. All services previously offered at 1500 Post Road remain available.

At 1500 Post Road

- **Outpatient Rehabilitation** offers skilled physical therapy and customized treatment plans for musculo-skeletal disorders, including rehab after injury or orthopedic surgery.
- The newly expanded **Lab Draw Station** serves both adults and children on a walk-in basis. With the latest robotic technology in chemistry analysis and the availability of electronic data transmission, your physician can have access to results within 24 hours.
- Drs. Carol Fucigna, Stephen Gallousis, Sara Coca and Janine Popot in the office of **Fairfield County Obstetrics & Gynecology** provide personalized, comprehensive care for women and adolescents, including minimally invasive procedures using the state-of-the-art *da Vinci* Robotic system.
- Drs. Sherman Bull, Kevin Miller, Xiang (Eric) Dong and Joey Papa of **Fairfield County Surgical Specialists** have experience in general surgery, pediatric surgery and surgical oncology, including minimally invasive techniques such as laparoscopic and robotic surgery.

At 6 Thorndal Circle

- The **Darien Imaging Center** continues to provide a full scope of superior imaging technology, including digital mammography, bone density, CT scan, MRI, ultrasound and Xray.
