ELIGIBILITY REQUIREMENTS

Rebates will be provided for the installation of new premium-efficiency, three-phase 1-200 HP open drip proof (ODP) or totally enclosed fan cooled (TEFC) 1200, 1800 or 3600 RPM motors. All other applications must be submitted as custom measures.

Motors must operate a minimum of 2000 hours annually.

PREMIUM-EFFICIENCY MOTOR REBATES – OPEN DRIP-PROOF

TERMS AND CONDITIONS

Application Offer: This Initiative covers products purchased and installed or placed into stock on or after January 1, 2007. Details of this rebate program, including rebate levels, are subject to change or cancellation without prior notice. Contact your utility for the latest program details. This application, with required documentation, must be received by December 31, 2007. Motor project/savings may not be claimed under any other program. Call 1-877-WISE-USE for additional initiative details.

Completed and signed applications or a letter of intent must be submitted within 30 days of the equipment installation to be eligible for Rebates.

Eligibility: Rebates are available to industrial, commercial, institutional and agricultural electric services customers. Motors must be installed or stocked in the service territory of the participating utility. Motors covered by this program must be new, three phase, induction motors, NEMA Design A & B, 1 – 200 HP, ODP or TEFC, 1200, 1800, or 3600 RPM. Other motors may be eligible for rebate under other programs. Please contact 1-877-WISE-USE for additional information.

Proof of Purchase: A sales slip itemizing the new equipment purchased must accompany each incentive application form. The proof of purchase must indicate type, size, make, and model number of the motor, as well as the date purchased.

Application Form: This application must be filled out completely, truthfully and accurately. An authorized representative of the customer must sign, date, and submit the application along with an itemized proof of purchase or invoice. The efficiency information provided should be the NEMA nominal-efficiency rating from the motor name-plate. Efficiencies are to be full-load nominal efficiencies tested in accordance with IEEE Standard 112, Test Method B.

Payment: Please allow 30 days for payment or account credit. Payment process may take longer if information is missing on application. Call 1-877-WISE-USE for details.

Assignment: The customer may assign the rebate payment to a qualified contractor.

Approval and Verification: Pre-approval from your electric utility may be required. Your participating electric utility reserves the right to verify sales transactions and to inspect the motor installed or stocked under this program prior to issuing rebates, or at a later time, for monitoring and evaluation purposes.

Tax Liability: Your participating electric utility will not be responsible for any tax liability that may be imposed on the customer as a result of the payment of rebates. All customers must supply their Federal Tax Identification number or Social Security number and a completed and signed W-9 form in order to receive a Rebate.

Endorsement: Your participating electric utility does not endorse any particular manufacturer, product or system design in promoting this program.

Limitation of Liability: YOUR ELECTRIC UTILITY DOES NOT WARRANT THE PERFORMANCE OF INSTALLED EQUIPMENT, EXPRESSLY OR IMPLICITLY. Rotational speed differences between premium and EPACT motors can affect savings or performance. Contact your electrical contractor for details regarding equipment performance and warranties.

The liability of your participating electric utility is limited to paying the Rebate specified. The participating utility is not liable for any consequential or incidental damages or for any damages in tort connected with or resulting from participation in this rebate program

Specific Requirements: Some utilities have specific requirements or conditions regarding issues such as: motors placed in stock, payment options, and rebate restrictions for facilities using self-generation for non-emergency purposes. Please call 1-877-WISE-USE for additional details.

Owner's Certification: Owner certifies that he/she has purchased and installed the equipment listed above at the defined location. Owner agrees that all information is true and that he/she conformed to all equipment requirements listed. Owner has verified that the motors listed above have been installed correctly.

ISO-NE Capacity Payments: By signing this document, and as a condition for receiving a rebate pursuant to this program, Customer hereby assigns to its participating electric utility, either CL&P or UI, whichever the case may be, all of its rights, title and interest in and to any and all LICAP, ICAP, or any and all other capacity-related credits or payments for which Customer may be eligible from ISO-NE or such value associated with the settlement of such LICAP, ICAP, or capacity payments as determined through the ISO-NE LICAP, ICAP, or any such like capacity supply auction or market (or its successors or replacements) for any capacity enrolled with ISO-NE.

Class III Conservation Credits: In accordance with the Department of Public Utility Control's June 28, 2006 decision in Docket No. 05-07-19, DPUC Proceeding to Develop a New Distributed Resources Portfolio Standard, customer is not eligible to receive or retain any Class III conservation credits for this project. Such credits shall be retained by either CL&P or UI for the benefit of their customers through the CEEF. Customer may be eligible to receive and retain Class III conservation credits for projects which do not receive funding from the CEEF. Such projects would be treated as separate projects under the Class III credit program.
