FILL-IN PUZZLE

The words to go into the diagram are listed in alphabetical order according to the number of letters in each word. The Across words and the Down words are mixed together in the word list. To solve this puzzle, place all of the words into the diagram crossword style. Each word will be used only once, so it’s a good idea to cross off each one as you use it. One word has been entered to help you get started.

DIAGRAMLESS FILL-IN

The E's have it in this special fill-in puzzle because all the E's have been placed in the diagram for you. But, we've taken out the black squares that indicate the beginning and end of each word. To solve, look for patterns of E's in the diagram that match the words in the list—double E's (as in SNEER) and/or multiple E's (as in REESE) will be the keys to get you started. Remember to add a black square at the beginning and end of each answer and to balance each black square with its diagonally symmetrical counterpart on the opposite side of the diagram.

NUMBER FILL-IN PUZZLE

Number Fill-Ins are fill-in puzzles with a delightful difference—instead of words, each puzzle consists entirely of numbers! Just like regular fill-ins, the entries are given to you. Solve the puzzles by filling in the diagrams with entries reading across and down as in a crossword puzzle. The entries are listed in numerical order according to length. Across and Down entries are all mixed together; find their proper places in the diagrams. Each puzzle diagram has entry filled in to help you get started. Happy solving!
